

KILANI SAI NIKHIL

Hyderabad, India | +91 9390234902 | kilanisainikhil@gmail.com

PyPI: pypi.org/project/saara-ai | Hugging Face: huggingface.co/kilanisainikhil | GitHub: github.com/kilanisainikhil

PROFESSIONAL SUMMARY

Second-year B.Tech Computer Science student specializing in On-Device AI, Edge Computer Vision, and Python open-source developer tooling. Hands-on experience building local-first mobile applications, quantized edge vision models, and multi-agent workflows using Python, SQL, PyTorch, Flutter, Docker, and Google Cloud Platform (GCP). Focused on building privacy-preserving systems and practical open-source tools.

TECHNICAL SKILLS

Languages & Databases: Python, SQL, TypeScript, Dart, C++, SQLite (AES-256), Pandas, NumPy

AI, Machine Learning & Vision: PyTorch, YOLOv11, SAHI, ONNX, TFLite, LiteRT (Gemma 4 E2B), Computer Vision, Vector Search

Developer Tools & Frameworks: Model Context Protocol (MCP), Ollama, vLLM, Firecrawl, Flutter, Next.js, React, FastAPI

Cloud & MLOps: Google Cloud Platform (GCP Cloud Run, Vertex AI), Docker, Git, Linux Shell, CI/CD Workflows

OPEN SOURCE & ACHIEVEMENTS

Open Source Maintainer & Contributor

2025 – Present

PyPI & Hugging Face

- Published and maintain saara-ai on PyPI across 38 package releases, accumulating **2,600+ direct PyPI downloads**.
- Released AerialEye model weights and sutra-aerial-dataset (6,327 images) on Hugging Face Hub, accumulating **1,900+ combined downloads**.

NxtWave x OpenAI Academy x IndiaAI Buildathon

2026

Project Showcase

- Selected to showcase **Vitt**, an on-device AI financial tracking app running local LLM inference, at the national buildathon showcase.

PROJECTS

Target Roles: AI/ML Engineering Intern | On-Device AI / Edge ML Intern | Python Software Engineering Intern

Vitt — Privacy-First On-Device AI Financial Assistant

2026

Tech Stack: Flutter, Dart, LiteRT (Gemma 4 E2B), AES-256 Encrypted SQLite, Android Native Listener | GitHub Releases

- Problem & Concept:** Developed a cross-platform mobile app to parse financial notifications locally without sending sensitive user data to external cloud APIs or requiring SMS permissions.
- On-Device Inference:** Integrated LiteRT (Gemma 4 E2B) on Android for local LLM generation at ~14 tokens/sec with zero cloud API latency or recurring costs.
- Storage & Distribution:** Built local financial ledgers using AES-256 encrypted SQLite storage; released test APK builds on GitHub Releases.

saara-ai — Local-First CLI & Dataset Generation Tool

2026

Tech Stack: Python, TypeScript, google-adk, crawl4ai, Ollama, vLLM | PyPI Package

- Pipeline Architecture:** Built a local-first CLI tool to automate web data extraction and dataset preparation for local LLMs using vLLM, Ollama, and crawl4ai.
- Package Maintenance:** Authored and maintained 38 releases published live on PyPI (`pip install saara-ai`), accumulating **2,600+ direct package downloads**.
- Utility:** Reduced manual web extraction setup time for local dataset building workflows.

AerialEye — YOLOv11 Disaster Response CV Model

2026

Tech Stack: YOLOv11, PyTorch, SAHI, ONNX, TFLite, Google Coral TPU | Hugging Face Hub

- Model Training:** Trained a custom YOLOv11 object detection model on 6,327 high-altitude disaster response aerial images, achieving 89.4% mAP@0.5 on the validation set.
- Edge Quantization:** Exported weights to ONNX and INT8 quantized TFLite formats optimized for Google Coral TPU edge hardware.
- Open Source Reach:** Published pre-trained model weights and dataset on Hugging Face Hub (kilanisainikhil/AerialEye), reaching **1,900+ total downloads**.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering

2025 – 2029

NxtWave Institute of Advanced Technology — Hyderabad, India

- Core Coursework:** Data Structures & Algorithms, Python Programming, Database Management Systems (SQL), Linux Systems, Cloud Infrastructure.

CERTIFICATIONS

- Google Cloud:** Gen AI Master Certificate (July 2026)
- Google Cloud Skills Boost:** Build & Deploy Agents in Production | Deploy Your First Agent
- AMD AI Academy:** Agents 101 Certification (April 2026)
- DataCamp:** SQL Professional Track & Data Manipulation with Pandas
